

SECTION E – CERTIFICATION (HOARDING AND SCAFFOLDING)

This certificate allows for the certification of various aspects of the hoarding's design and installation, including scaffolding erected above or on the Authority's road reserve (footway). When certifying an element you must indicate this by ticking the applicable box against the specific element (see below)

Property Address

Hoarding (design) - To be lodged with the application form.

I hereby certify that I am an appropriately qualified and competent person in the relevant field of structural engineering and as such can certify:-

That the certified structural drawings listed below have been checked and comply with:-

- (a) The relevant clauses of the Building Code of Australia;
- (b) The relevant current Codes of Practice of the NSW WorkCover Authority;
- (c) The relevant current Australian Standards; and
- (d) Other documents listed (e.g. Risk Assessment Recommendations)

Hoarding (as-built - structural) - To be faxed to the Authority within 24 hours of completion (Fax: 9271 5373).

I hereby confirm that I have inspected the installed hoarding and certify that the hoarding complies with the full set of certified structural drawings forming part of the approval.

Hoarding (as-built - non structural aspects) - To be faxed within 24 hours of completion (Fax: 9271 5373).

I hereby confirm that I have inspected the installed hoarding and certify that the installation complies with the approved drawings/details and all conditions of the approval including tree protection, signage and footpath lighting.

Scaffolding (installation) - To be faxed within 24 hours of erection (Fax: 9271 5373).

Note: The scaffolding certifier cannot certify Type B hoardings.

I hereby certify that I am an appropriately qualified and competent person to erect the proposed scaffolding and to adequately secure any required ties to the adjoining building/structure and as such can certify that:-

That the scaffolding erected at the subject premises has been checked and complies with:-

- a) The relevant clauses of the Building Code of Australia;
- b) The relevant current Codes of Practice of the NSW WorkCover Authority, the Construction Safety Act and Occupational Health & Safety Act;
- c) The relevant current Australian Standards (including AS 1576 and AS/NZS 4576); d) The Supplier's Specification;*
- e) The Designer's Specification complying with a) to c) above. If applicable, the structure is to be separately certified*.
